Александритовый лазер Motus AX

Applications

- ● ● ● Hair Removal
- ● Pigmented Lesions

Sources

Alexandrite - 755nm

Motus AX and Moveo Technology

Hair Removal Laser: Starting the Real Revolution

The missing insight that was missing in the laser removal sector. A single compact system combining the outstanding Alexandrite 755 nm laser source capability with total safety and comfort.

Laser source: the keys to success

Total comfort and pain free

Contact cooling system and repeated passages with low power pulses induce gradual heating avoiding pain and side effects.

Effective and safe

On all phototypes, also dark skins and light or fair hair.

Application Speed

(reaching frequency of 5Hz) and limited number of treatment needed.

Saving Power = Saving Costs

Motus AX with Moveo HR. The Real Revolution in the Hair Removal Universe

The new handpiece technology integrates a sapphire tip that comes in contact with skin, reducing the reflected energy loss. The new hair removal method consists of repeated passes on the skin's treated areas that cause gradual heating of the vital parts of the hairs.

Moveo PL: The new Moveo Handpiece for Pigmented Lesions

DEKA introduces the new **Moveo PL** handpiece, which extends the advantages of Moveo technology to the treatment of **benign pigmented lesions**.

This new 7-mm handpiece allows to treat skin spots by progressively heating the lesion. Compared to the traditional “single spot” technique, the Moveo PL handpiece guarantees **excellent efficacy without causing discoloration or hypopigmentation**.

No Reflection = 100% Of Energy Absorption

The total adherence of the handpiece on the surface to be treated resets energy dispersion, thus obtaining 100% of energy absorption, which means that to obtain the same results we need lower power compared to other systems on the market.

100%

Maximum Effectiveness at Lower Power = Total Safety

The cumulative laser emission allows to deliver an amount of energy at lower power pulses that leads to hair destruction in a way that is totally painless for the patient and side-effects free, such as burning or discolouring, also in darker skin types.

Total Safety

Standard Handpieces

- Choose up more than 10 standard handpieces
- Different spotsizes available (2.5 - 20 mm)
- Automatic spot recognition system
- Ergonomic connector for air-cooling devices

Hair Removal

Pigmented Lesions
